

BUYING PROCESS

After your closing, you will receive a brief survey from an independent research company asking you to evaluate our performance and rate your satisfaction. But that's not the end of our relationship with you.

AFTER THE CLOSING

- We keep in touch and our clients are encouraged to do the same. Like all professionals, we appreciate referrals
- We are always within a phone call if you should have a problem or questions regarding your experience with us
- We have helped many clients with the purchase of commercial, rental and vacation properties in addition to their primary home
