

## Interactive Virtual Property Tours

Koenig & Strey GMAC Real Estate is proud to lead the industry with the latest interactive web technology: Virtual Property Tours. Our Virtual Tour Program allows buyers to “visit” your home in an instant with the click of their mouse. Buyers can pique their interest in your property 24-hours a day from the convenience of their home or office. While traditional flat photography does not always represent a property to its fullest potential, Virtual Tours showcase your home dynamically and create excitement and enthusiasm with buyers. Virtual Tours provide immediate gratification to the savvy on-line buyer.

Koenig & Strey GMAC Real Estate utilizes innovative virtual technology. Our virtual technology program does not require any additional downloads and loads on most computers in less than one minute.

Our Virtual Property Gallery is just one more marketing vehicle that we use to expose your property to the largest number of buyers in order to generate the maximum number of inquiries.
